

Finlay Community School

Physical Education

Our Whole School Curriculum Intent

At Finlay, we aim to teach a broad and balanced curriculum that enables children to enjoy, achieve and succeed in line with the National Curriculum. We provide opportunities to develop the children's cultural capital and ensure they are life-long learners, who are ready for the next step of the education and to thrive in Society. In addition to teaching the National Curriculum, we also aim for our children to leave school with a SMILE! Our SMILE values are: social awareness, mental health and wellbeing, independence, life skills and excellent aspirations. We provide opportunities to develop these values in all curriculum areas.

Our Physical Education Intent

At Finlay, we teach the National Curriculum. The National Curriculum states that, "a high-quality physical education curriculum inspires all pupils to succeed and excel in competitive sport and other physically-demanding activities. It should provide opportunities for pupils to become physically confident in a way which supports their health and fitness. Opportunities to compete in sport and other activities build character and help to embed values such as fairness and respect." At Finlay, we aim for our children to complete 2 hours of physical activity a week, additional to playtime and lunchtime. Pupils are taught the skills needed to play competitive invasion games, as well as given opportunities to develop their skills in gymnastics and dance. Our pupils are provided with many sporting after school clubs, and are provided with many competitive sporting opportunities, including league football, gymnastics competitions, panathlons, quick stick hockey tournaments and more. As well as taught P.E lessons, many of which are taught by our P.E specialists during PPA sessions, the children engage in swimming lessons during their time in Key Stage 2. Each class swims for half of the year, allowing them to develop their confidence in key strokes (backstroke and front crawl) as well as an understanding of how to keep themselves safe in water. The children's progress is assessed by qualified swimming teachers, and the children are awarded a certificate at the end of their time swimming every year.

Characteristics of Effective Physical Education Teaching

What would I see in a unit of Physical Education?

What would I see in a Lesson?

<i>Children to be given plenty of time to repeat the actions that are being learned in the lesson by sharing equipment as little as possible</i>	<i>Children to be properly equipped for the lesson in terms of indoor/outdoor clothing and appropriate footwear</i>	<i>Children to respond quickly to a whistle, or similar, ready to listen to further instructions</i>
<i>Children to be given opportunities to manage their own games by following rules and acting with sportsmanship</i>	<i>5 minute recap at the beginning of each lesson to encourage retention of key knowledge and vocabulary.</i>	<i>Opportunities to test the game skills they have been learning in a game situation either each lesson or for one whole lesson each unit</i>
<i>At most a 1:3 ratio of teaching time (explaining, setting up etc.) to learning time in the lesson</i>	<i>Children to be active as much as possible by reducing waiting times and working in smaller groups</i>	<i>Children to be set into ability to ensure children are able to learn with those at a similar stage of development</i>
